

A WORD FROM JOHNNO

Hi All,

Well it's nearly Christmas and the year is flying. Evan and Sheriden William's mono boxes are now completed and they are milking cows and it's all going very well, the cows will get trained over a couple of weeks and it has been fairly smooth to date. Evan and Sheriden have been excellent to work for, and we can't wait to showcase our newest Robotic dairy in the new Year.

On the opposite page is a list of our second hand equipment, we have a bit up for sale at the moment and there are quality items on there, so give us a ring if you have any interest.

The 6000 litre Westfalia milk tank and 16 units of Dematron milk meters are good quality and worth a look at if you are in the market for a new milk tank or cup removers/milk meters.

We do have some exciting news. Our third rural store will be opening soon, and is located in Bunyip. It will be called Bunyip Rural supplies. We hope to open mid December or early January, but we won't expect it to be fully stocked until late January to early February. Poowong and Yarragon will be proving assistance initially. New employees, phone numbers and opening times will all be announced in due course. It will be located at the same premises as where Blackwood Rural supplies ran their business for many years. If we are there setting up please call in. if you need stock we will organise this from our two other stores, so feel free to use us straight away. I am excited to be supplying rural products in the Bunyip area.

If you need cup removers please check out our 12 month interest free deal.
